1 The model-assisted global query system for multiple databases in distributed enterprises
Waiman Cheung, Cheng Hsu
October 1996 **ACM Transactions on Information Systems (TOIS)**, Volume 14 Issue 4
Publisher: ACM Press

Full text available: ⬛ pdf(697.73 KB)   Additional Information: full citation, abstract, references, citings, index terms

> Today's enterprises typically employ multiple information systems, which are independently developed, locally administered, and different in logical or physical designs. Therefore, a fundamental challenge in enterprise information management is the sharing of information for enterprise users across organizational boundaries; this requires a global query system capable of providing on-line intelligent assistance to users. Conventional technologies, such as schema-based query languages and ha ...

2 ODM: an object oriented data model for design databases
M. A. Ketabchi, V. Berzins, S. March
February 1986 **Proceedings of the 1986 ACM fourteenth annual conference on Computer science CSC '86**
Publisher: ACM Press

Full text available: ⬛ pdf(892.26 KB)   Additional Information: full citation, references, citings

3 The 3DIS: an extensible object-oriented information management environment
Hamideh Afsarmanesh, Dennis McLeod
October 1989 **ACM Transactions on Information Systems (TOIS)**, Volume 7 Issue 4
Publisher: ACM Press

Full text available: ⬛ pdf(2.79 MB)   Additional Information: full citation, abstract, references, citings, index terms, review

> The 3-Dimensional Information Space (3DIS) is an extensible object-oriented framework for information management. It is specifically oriented toward supporting the database requirements for data-intensive information system applications in which (1) information objects of various levels of abstraction and modalities must be accommodated, (2) descriptive and structural information (metadata) is rich and dynamic, and (3) users who are not database experts must be able to design, manipulate, a ...

4 An efficient method for checking object-oriented database schema correctness
A. Formica, H. D. Groger, M. Missikoff
September 1998 **ACM Transactions on Database Systems (TODS)**, Volume 23 Issue 3
Publisher: ACM Press

Additional Information: full citation, abstract, references, citings, index
